

# Pediatric Care Coordination

If your child has complex medical needs and you want help managing their care, our pediatric care coordinator is here for you. Call the number on the back of your member ID card to learn more.

**We'll pair you with a coordinator who's an expert in pediatric care. They'll help you:**

- Set and reach health and wellness goals for your child.
- Find disease-specific education and support.
- Identify gaps in your child's treatment plan.
- Learn how to advocate for the specialty referrals your child needs.
- Discover resources for physical and emotional well-being.
- Navigate the complex world of providers, services and insurance.

Our care coordinator works with you and your child's doctors and specialists. Together we create treatment and wellness plans that fit your family's needs.

**Sign up today by calling the number on the back of your member ID card.**

*Care coordination isn't a replacement for your doctors, but coordinators can help you manage your child's medical needs. You don't have to do it alone.*
